SKILLS

- **Programming Language:**
  - C Programming
  - Python
  - Java
- **Web & Software Development:**
  - Basic Web Technologies
- **Database :**
  - MySQL
- **Tools:**
  - Git & GitHub
  - VS Code
  - MS Word
  - MS PowerPoint
- **Hardware & IoT:**
  - Raspberry Pi, IR Sensors,
- **Soft Skills:**
  - Teamwork, Communication

LANGUAGE

- English
- Hindi
- Bengali

MOHAR SARKAR

Computer Science and Engineering

ABOUT ME

I am a Computer Science Engineering student with hands-on experience in C, Python, Java. I possess skills in Web development, backend systems. I am passionate about building practical applications, learning new technologies, and improving my problem-solving abilities.

EXPERIENCE

Web Development Intern
Intelgic | Aug 2025 – Oct 2025

- Worked on a University Management System project using Python Flask.
- Developed student dashboard and login authentication functionalities.
- Assisted in attendance management and database integration.

EDUCATION

Bachelor of Technology in Computer Science and Engineering
Meghnad Saha Institute of Technology
11/2024 – Present
Kolkata, India | GPA: 6.53

Diploma in Computer Science and Technology
Ghani Khan Choudhury Institute of Engineering and Technology
11/2021 – 12/2024
Malda, India | GPA: 7.0

Secondary Education
Balurghat High School
01/2020 – 03/2021
Balurghat, India | Percentage: 68%

PROJECT

RABEPILEF – Raspberry Pi Based Line Follower Robot for Office Assistance •

- Developed an office assistant robot using Raspberry Pi and IR sensors capable of automated line following and file transportation.
- Implemented movement control and sensor integration using Python and IoT concepts.
- Designed the project to assist with office-related automation tasks.
  Technologies Used: Python, Raspberry Pi, IoT, IR Sensors
